EFRA 1/12 Electric Track EC 2008 – Ingolstadt, Germany Battery List Clarification

The 1/12 EC is normally seen to be an end of season meeting. The Battery homologation coming in to force on the 1st April of each year was timed to miss a change of permitted batteries part way through the 1/12 winter season, unfortunately this has not happened on this occasion.

To ensure that the spirit of the rules are followed the EC in Ingolstadt will use the current 2007 EFRA battery homologation list dated 12.01.07 and the 2007 battery dimensional rules.

Please note that the East Power (EP) SC-4200 MkII (Black Disk) is not included in this list and will not be permitted at this event.
