

Do not silence my bladder

We are all familiar with the free public urinals for men. Both along ordinary streets, as on the occasion of big events, our fellow man can enjoy this sanitary equipment for free. In the meantime, women have to wait until it's their turn, and often need to shuffle along for the toilet door. And what's more, when it is finally their turn, they have to pay the bill!

This is what makes us argue for the right to pee for free, for women also.

How to make this happen ?

We want to push the authorities that are in charge (provinces, city governments, .) to take the necessary measures to offer free sanitary equipment for women as well. And this especially during big events (e.g. the Festival of Ghent). To convince the authorities and sponsors, your support is much needed. So sign this petition. Let the voice of the people be heard !!!
