these are two trains which could be good for us. Best is to take the one at 08.22. It's with one change as you see, but it's always better to sleep one hour longer But if it's not available take the one at 7. 30. This one is direct, but we would have to wait some time for ferry. Do you need money before you go?? (each ticket should cost about 20 euros)
